The unluckiest family in Britain?

The Benson family are very happy, which is really surprising. In the last seven days they have had seven accidents, and been to hospital every day! It all started last Sunday. Luke, aged 8, fell off his bike and broke his leg. Then the next day Louise, aged 5, cut her hand in the kitchen. The day after that their mum, Laura, hurt her foot in the garden. On Wednesday, their dad, Tony tripped over the cat and cut his head. On Thursday, Rachel, aged 15, fell over while she was ice-skating and hurt her elbow and wrist. On Friday, Mabel, their grandma, fell down the stairs and broke her ankle. And on Saturday, Ted, their granddad, walked into a tree and hurt his nose and forehead! 'We've had a bad week, it's true,' said Ted. 'But I don't think we're unlucky - I think we're the luckiest family in Britain, because we're all home from hospital now!'
