Nadine is 14 and lives in Burkina Faso in West Africa. She's in 7th grade at school, but her typical day is not like a typical school day for a teenager in Europe. Every morning, Nadine gets up very early, at 4 am. She cleans the house. After that, she makes breakfast and prepares her brother and sister for school. She rides her bike to school. School starts at 9 o'clock.

At noon, Nadine cycles back home and has lunch. Then, she goes to the market and helps her mother before she goes back to school. After school, she and her sister cook dinner for the family. There isn't electricity in Nadine's house, so she can't watch TV or surf the Internet. Nadine does her homework and reads with a candle. Then, she goes to bed.
